Welcome and Introduction

I am delighted to introduce the first edition of the Mallow College of Further Education Progression Guide!

As Guidance Counsellor of Mallow College I am privileged to have been able to play a small part in the journey of many students. I have witnessed the transformative nature of further education first hand and am proud of the knowledge, skills and confidence our students gain by completion of our courses.

For over a decade I have worked to increase the progression routes available to Mallow College graduates with the Universities and Institutes of Technology across Munster and the UK. We have built strong and invaluable relationships with these Higher Education Institutions and have negotiated special progression agreements that offer preferential placement for Mallow College applicants.

There has never been a better time to attend a further education college. The progression opportunities from completing a QQI level 5 or level 6 qualification have never been as far reaching.

However, I understand it is difficult trying to navigate through course codes in order to understand routes from QQI to higher education. Add progression agreements to the mix, the variations in the entry requirements across all of the Higher Education Institutions in Munster, and a seemingly complex QQI Scoring process, and it's little wonder you might be confused!

I have designed this easy to follow guide to help you understand how doing a full QQI level 5 or QQI level 6 award at Mallow College enables you to progress to a University or Institute of Technology.

I hope that this will be a useful tool for current and prospective students, parents, further education teachers, guidance counsellors, and interested parties in navigating the progression options from completing a QQI qualification at Mallow College of Further Education.

The guide allows you to start your search by the University or Institute of Technology you are interested in progressing to. Although our courses allow students to progress to over 40 higher education institutions across Ireland, this guide focuses exclusively on the Universities and Institutes of Technologies based in Munster.

Helping you reach your full potential,

Suzanne Powell BA, HDipEd, PDGC

Suzanne Powell

Guidance Counsellor
Mallow College of Further Education

How to apply to a University of Institute of Technology

Complete an online application at www.cao.ie before 1st February. Present with a full QQI level 5 or 6 award and meet the specific entry or component requirements of the University of IoT courses you apply for.

Mature Students

You are considered a mature applicant to CAO if you are over 23 from the 1st January of the year you want to enter a higher education institution. It is important to note that there are far greater progression opportunities available to mature applicants (over 23). The entry criteria for mature applicants are different to what is found in this guide. However, while you can apply to the CAO on the basis of being a mature applicant you can ALSO apply on the basis of your QQI level 5 or QQI level 6 qualification. Therefore, if you are a mature student and would

like to progress to higher education then the information in this booklet is important to you. However, there are additional entry requirements and application instructions for mature students that you will not find in this guide. To apply to CAO on the basis of your QQI award AND mature grounds you need to source different information to guide you. The Guidance Counsellor at Mallow College is always there to support and advise you. Simply call in to reception to make an appointment.

QQI Scoring Process

To be eligible for progression to a Higher Education Institute such as a University or Institute of Technology you must first present with a full QQI level 5 or level 6 award of at least 120 credits.

You then need to meet any specific entry or component requirements as laid down by the College you are applying to. These requirements are contained in this guide.

Each component you do is given a score as follows:

- 3.25 for a distinction
- 2.16 for a Merit
- 1.08 for a Pass

This number is then multiplied by the individual credit value to a maximum of 120 credits. This means you can achieve up to a total of 390 points.

The best score for each applicant is calculated and the results are forwarded to the CAO in July of each year. Applicants may be ranked in order of their scores.

Confused?

If you found that confusing to understand you are not alone! Please read the following section to understand how your QQI points equate to CAO points.

QQI Points equate to Leaving Certificate CAO points

Completing a course at Mallow College does not automatically guarantee you a place in a third level college. You must achieve a full major award of at least 120 credits and meet any entry or component specific requirements for entry to the course you apply for. Places may be limited and offered competitively dependent on your QQI score.

With 120 credits you achieve the equivalent of 390 CAO points. Please remember, however, that your QQI course may link to a CAO course with points much higher than that. In those instances your QQI score is compared to every other QQI applicant who is applying for the same course. You are then ranked in order of your QQI score and those with the highest scores get the places.

If all of your components are 15 credits each, which they usually are, the information below will help you understand how your QQI results equate to CAO points.

1 QQI Pass of 15 credits = 16.25 CAO points	1 QQI Merit of 15 credits = 32.5 CAO points	1 QQI Distinction = 48.75 CAO points
---	---	--------------------------------------

CAO Points	QQI results
390 CAO points & higher	8 distinctions
373.75	7 distinctions, 1 merit
357.5	6 distinctions, 2 merits
341.25	5 distinctions, 3 merits
325	4 distinctions, 4 merits
308.75	3 distinctions, 5 merits
292.5	2 distinctions, 6 merits
276.25	1 distinction, 7 merits

260	8 merits
243.75	7 merits, 1 pass
227.5	6 merits, 2 passes
211.25	5 merits, 3 passes
195	4 merits, 4 passes
178.75	3 merits, 5 passes

QQI Points Calculator

There is a free online points calculator on the Careers Portal website which you can find at www.careersportal.ie/qqi/ which will calculate your QQI results for you. This is an excellent resource and a tool you can use as soon as you get your results.

University College Cork (UCC)

UCC reserve a specific number of places for applicants applying on the basis of their QQI qualifications. Access to UCC via the QQI route has increased greatly over the years from a quota of 54 places in 2012 to 358 places reserved for QQI applicants in 2019. Mallow College run over thirteen QQI level 5 and level 6 qualifications that link with 33 UCC programmes.

Entry to first year is available on a competitive basis to students who present with one of the recognised QQI qualifications. You must meet any specific component requirements and have achieved the required distinctions.

QQI Scoring

The scores from your best eight components (120 credits) are added up to give a tally which is used to rank students and reserved places are then offered in order of merit.

Important!

Unlike a lot of other Higher Education Institutions, UCC will only consider QQI applicants presenting a full award from a **single sitting**.

University of Limerick (UL)

While mature students can apply to the full range of courses at the University of Limerick, there are fewer progression routes for QQI applicants than other Irish Universities. Still, there are options for progression to UL for most graduates of Mallow College of Further Education.

To apply for a QQI place in the University of Limerick candidates must present with a full QQI award with a minimum credit value of 120 which must include a distinction in at least 5 component awards. In addition to satisfying the minimum entry requirements, candidates must also satisfy the specific component award requirements as outlined below.

HONOURS BACHELOR DEGREES LEVEL 8 LIST

CORK INSTITUTE OF TECHNOLOGY (CIT)

To apply for a place in CIT you should complete an online application to CAO before 1st February. CIT allocate points to QQI applicants and these points are used to rank applicants in order in the same rounds of CAO offers as Leaving Certificate applicants.

Unlike universities like UCC and UL, CIT do not reserve places for QQI applicants. QQI applicants compete for course places as if they were presenting with a Leaving Certificate. You must present with a full award totalling 120 credits. This full award may be accumulated over more than one academic year.

If you also present a Leaving Certificate to CAO, the CAO will use whichever is the better of the Leaving Certificate points or the QQI points.

Cork Colleges Progression Scheme

One of the many advantages of attending Mallow College is that you can avail of the Cork Colleges Progression Scheme (CCPS) <http://www.cit.ie/prospectivestudents.ccps>. Under CCPS, certain courses at Mallow College are linked to courses in CIT. CIT then reserve places for Mallow College applicants who meet their requirements. The scheme is in addition to the general QQI entry route and may give Mallow College applicants preferential consideration when applying for some courses at CIT.

To apply for the Cork Colleges Progression Scheme you should apply to www.cao.ie by 1st February. You then complete the online CCPS application form which can be found at <https://survey.cit.ie/index.php/398986?lang=en> or by visiting the Cork Colleges Progression Scheme page on the CIT website.

If you are doing a QQI level 5 award you can apply for entry to year one. If you have completed a linked QQI level 6 award you may apply for entry to year one AND two of a CIT programme. If you wish to apply for advanced entry to year two it is strongly advised that you also apply for entry to year one as advanced entry to year two is not guaranteed.

CIT General Entry Requirements for QQI Applicants

For most courses at CIT you are required to have passed Maths in your Leaving Certificate or to present with a QQI component award in Maths.

Maths

If you failed Leaving Certificate Maths, took foundation level Maths, or did the Leaving Certificate Applied then you will be pleased to know that Mallow College of Further Education runs a free QQI Maths component outside of normal class time to help you meet this requirement.

Alternatively, CIT run a Maths Programme for Further Education Students which may allow you to meet the Mathematics minimum requirement for entry into programmes of study in the Business and Humanities field. For more information contact CIT admissions on (021) 4335040 or email admissions@cit.ie.

LIMERICK INSTITUTE OF TECHNOLOGY

QQI applicants to LIT do not need to present with basic entry requirements like a language or Maths. Applicants compete for course places in the same way as Leaving Certificate applicants. Applicants are required to meet the required points for the course and any other additional requirements outlined below. Apply to www.cao.ie before 1st February.

BONUS POINTS SCHEME

Links have been developed between Mallow College and LIT and LIT have agreed to reserve places and award additional bonus points for some courses when students present with certain components.

Limerick Institute of Technology (LIT) HONOURS BACHELOR DEGREES LEVEL 8 LIST

WATERFORD INSTITUTE OF TECHNOLOGY (WIT)

QQI applicants to WIT do not need to present with basic entry requirements like a language or Maths. Applicants compete for course places in the same way as Leaving Certificate applicants. Applicants are required to meet the required points for the course and any other additional requirements outlined below. Apply to www.cao.ie before 1st February.

CETB/WIT Progression Agreement

Waterford Institute of Technology offer preferential entry to students who successfully complete a linked QQI level 5 or 6 course at Mallow College of Further Education and who meet certain criteria.

This is an additional route available to QQI applicants who may apply on the basis of the CETB/WIT Progression Agreement, Leaving Certificate or QQI points, or as mature applicants.

WIT reserve a specific number of course places for students who apply through the CETB/WIT Progression Agreement. Full details can be found at <http://www.wit.ie/progression>.

Offers to applicants under the progression scheme are made in round Zero which is earlier than any other CAO offers you might get.

As a student of Mallow College you can get more information and support at our annual WIT Information session and at your course tailored CAO Progression talk where the Guidance Counsellor comes to you. As well as this, you are welcome to make appointments with the Guidance Counsellor who can support and advise you throughout the process.
